

# NIHONKAI MATHEMATICAL JOURNAL

Vol. 17, No. 1 (2006)

## Contents

Masaru NAGISA, Makoto UEDA and Shuhei WADA : Commutativity of operators .....	1
Masaru TOMINAGA : An estimation of quasi-arithmetic mean by arithmetic mean and its applications .....	9
Takahiro SUDO : $C^*$ -algebras of type R or non type R by K-theory and Fredholm index .....	27
S.M. PATEL, K. TANAHASHI, A. UCHIYAMA and M. YANAGIDA : Quasinormality and Fuglede-Putnam theorem for class $A(s, t)$ operators .....	49
Masumi DOMON, Takashi SANO and Tomohide TOBA : Left unitarily invariant norms on matrices .....	69
Daisuke DOBASHI and Jun MORITA : Groups, Lie algebras and Gauss decompositions for one dimensional tilings .....	77
K. BALACHANDRAN and A. LEELAMANI : A note on boundary controllability of neutral integrodifferential systems in Banach spaces .....	89
