

NIHONKAI MATHEMATICAL JOURNAL

Vol. 18, Nos. 1 & 2 (2007)

Contents

| | |
|---|----|
| In-Bae KIM, Hye Jeong PARK and Hyunjung SONG : Ricci-pseudo-symmetric real hypersurfaces in complex space forms | 1 |
| Osamu HATORI, Takeshi MIURA and Hirokazu OKA : An example of multiplicatively spectrum-preserving maps between non-isomorphic semi-simple commutative Banach algebras | 11 |
| Mitio TAKANO : A syntactical study of the subminimal logic with Nelson negation | 17 |
| Belmesnaoui AQZZOUZ : Holomorphic functions taking values in quotients of Frechet b-spaces | 33 |
| Ritsuo NAKAMOTO and Yuki SEO : A complement of the Ando-Hiai inequality and norm inequalities for the geometric mean | 43 |
| Dai HONMA and Takeshi MIURA : Remarks on n -th root closedness for commutative C^* -algebras | 51 |
| Yousuke ARAYA : A strong vectorial Ekeland's variational principle | 57 |
| Takuji SATO : Kähler structures on the cotangent bundles over some statistical manifolds | 65 |
